EXPERIENCE

Varsity Tutors, Seattle, WA - Software Engineer

July 2018 - Present

- Extensive development of Sales/Inventory Dashboard to accommodate new 1:N Courses feature. This became Varsity Tutor's primary internal tool for all 1:N course management tasks
- Revamped Client Dashboard to support 1:N courses/apis. This enabled Tutoring Clients to manage, schedule, and conduct online VT tutoring classes
- Vast refactoring of LFaaS pages into reusable components. Delivered new LFaaS templates to support 1:N
- Worked on a distributed full-stack team building the VT web application. Primary focus was to reduce and improve the state of 7 year old monolith application into scalable and performant micro-services which used a myriad of web technologies such as es5/6/7, React/Redux, NextJS, Rails, Vagrant, Go, jQuery.

Aetna/CVS, Remote - Software Engineer

June 2016 - July 2018

- Integral part of Aetna Digital Front-End Engineering team; building enterprise Healthcare technology solutions focused on consumer health transparency.
- Member of the Component Council: a representative group regulating the use of internal frontend component based designs, testing, and implementation.
- Built core features in primary Web Application. Highlights include: price-polling, type-ahead search, geolocation
- Responsible for internal UI component library and styling library. Primary purpose of these tools was to ensure Web Client team could follow industry best practices such as responsive SPA principles, React/Redux componentization, and application state management.

FullContact, Denver, CO - Customer Success Agent

Jan 2015 - Jun 2015

- Resolved all customer issues pertaining to the FullContact API suite and user facing services.
- Worked closely with various PMs to coordinate Developer resources and time in Agile manner.

Name.com/Rightside.co, Denver, CO - Technical Agent

Aug 2012 - Jan 2015

- HTML/CSS, PHP, WHM, cPanel, DNS, FTP, TCP/IP, IMAP/SMTP/POP3 troubleshooting via phone/email.
- Authored and maintained all internal and external Knowledge Base Articles.
